ASSESSMENT ANALYTICS DEMO

Generated option profiles

Observed shares within simulated rest score groups

Each trace summarizes fictional participant responses in five score groups.

All item IDs and responses were produced by the included generator.

Percentages describe the simulation only; no real examinees are included.

144 generated items | 4 panels per page | Options A-D

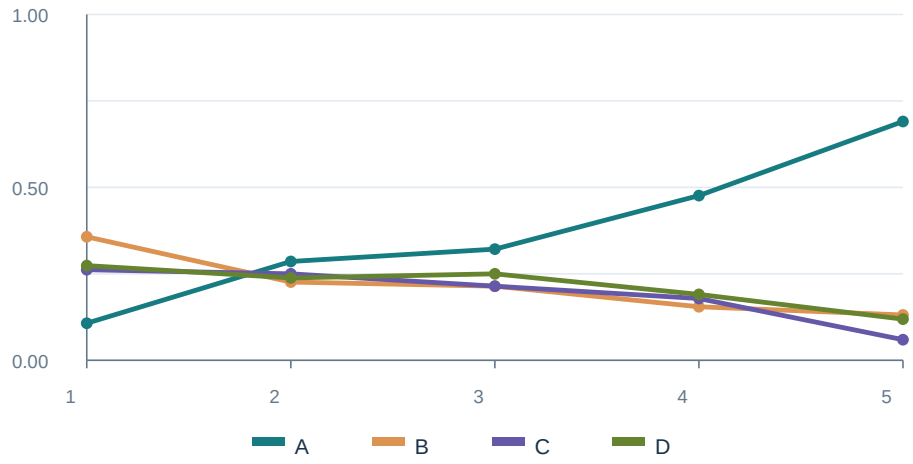

All names, item identifiers, responses and values are synthetic.

Generated option profiles

Observed shares within simulated rest score groups

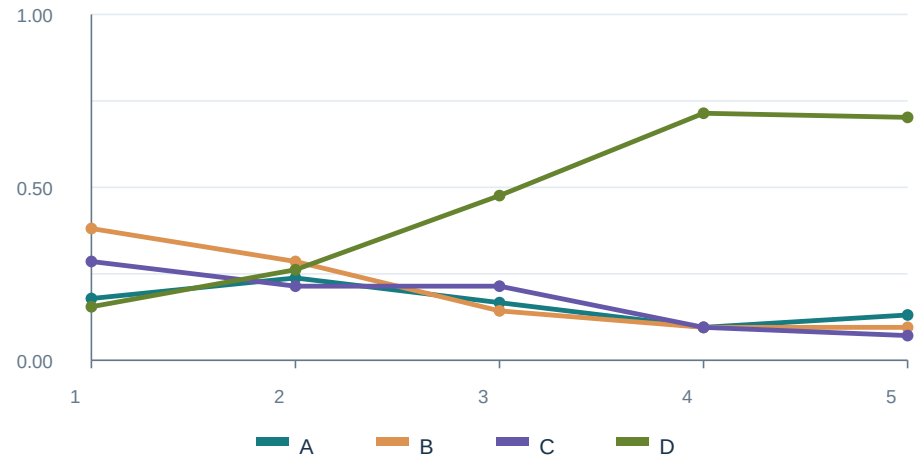

DEMO-001 Cycle A / Form 1 / Domain A

Key A | n=420 simulated responses

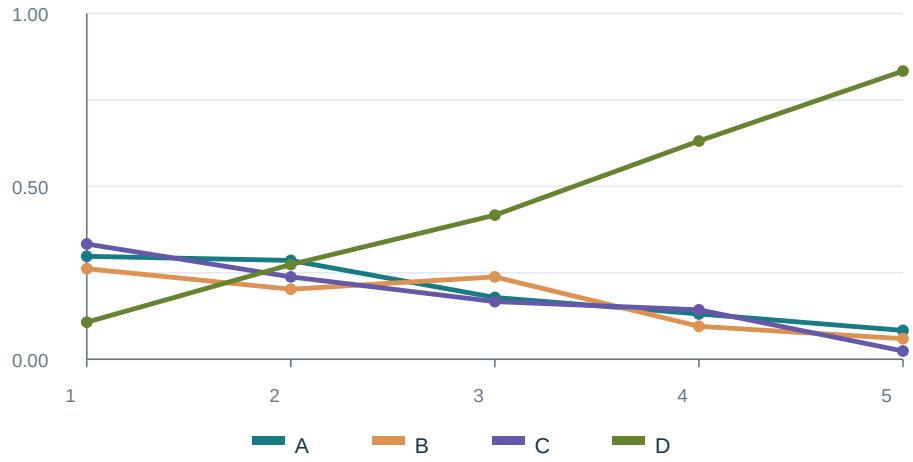

DEMO-002 Cycle A / Form 1 / Domain A

Key D | n=420 simulated responses

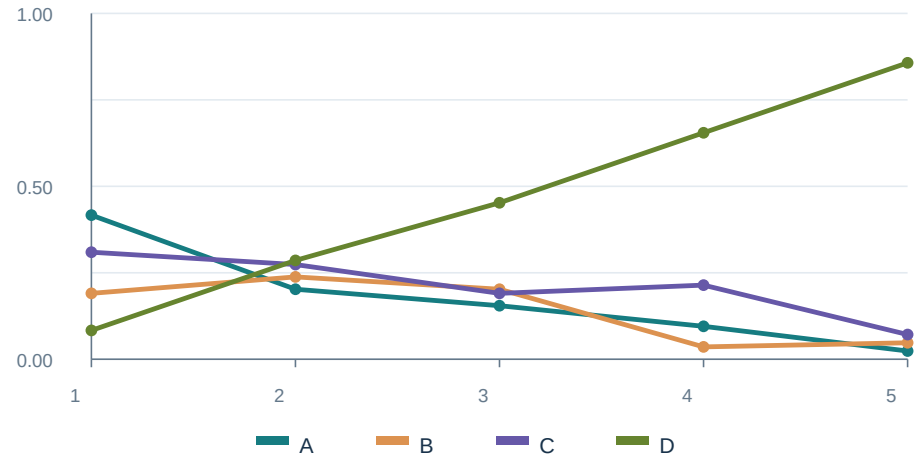

DEMO-003 Cycle A / Form 1 / Domain A

Key D | n=420 simulated responses

DEMO-004 Cycle A / Form 1 / Domain A

Key D | n=420 simulated responses
